

BROOKLYN

BROOKLYN IT LEAPS AHEAD

What's new?

Brooklyn IT Pty Ltd, in conjunction with their security provider Allianz, now provides an even more tailored approach to the SME IT market with a new policy wording for manually quoted clients.

Already a market leader in the online space, these changes will cater for brokers and clients who require a bespoke solution to their IT insurance needs.

Damien Stephen, Brooklyn IT Senior Underwriter said "Whilst our focus has and always will be the SME market, we have recognised that clients and brokers require a more tailored approach to coverage and pricing rather than a 'one size fits all' attitude."

Policy Features

The following options are available to brokers and their clients under the new wording:

- A Civil Liability insuring clause,
- A Continuous Cover clause (regardless of previous Insurer),
- First Party Data Recovery Expenses.

Standard improvements to the IT wording include increases in the sub-limits for:

- Claim Mitigation Costs,
- Cost of Official Inquiries, and
- Product Recall Expense coverage.

The new policy also includes a Refund of Purchase Price write back and Automatic Newly Acquired Entity / Subsidiary cover (up to 45 days).
